

## 16<sup>th</sup> International Weather and Climate Forum

# International symposium "Climate: the necessary changes in behaviour and lifestyles, from the citizen...to the collective!"

28 May 2019 - Paris City Hall, Paris 4<sup>th</sup> – Access by registration

This international symposium will highlight the diversity of climate concerns such as **youth mobilization** and **social issues**, while matching them with scientific orders of magnitude and thematic perspectives. To respect the objectives of the **Paris Agreement**, it is essential to build a collective reflection combining climate and social sciences that will lead to the necessary **behavioural changes** to reduce CO2 emissions and adapt.

This day therefore aims to bring together audiences from various sectors: **citizens** but also **governments**, **local authorities**, **companies**... without excluding the **education** system and **NGOs**.

This conference is part of the 16<sup>th</sup> FIM edition. Created in 2004, this event essential for education and mobilization on climate issues facilitates the exchange between actors so that everyone can act!

### An event co-organized by

ecoact

**Météo et Climat** is a non-profit association chaired by climatologist Jean Jouzel.

Its objective is to promote and popularize atmospheric and climate sciences through the organization of events and publications. Since 2004, she has co-organized the International Forum on Weather and Climate with Christian Vannier.

**IWF2C** is chaired by Christian Vannier, founder of FIM. He has experience in international climate communication in close collaboration with international weather presenters. Since 1994, it has been co-organizing international events with the aim of bringing together the various communities that participate in climate change education networks.

**EcoAct**, created in 2005, has become with the integration of Alliantis and Carbon Clear, the leading provider of solutions in Europe, the United States and Africa in response to climate challenges. Sylvianne Villaudière, founder of Alliantis, now EcoAct's DGA, has been supporting leaders and stakeholder groups since 2000 in their climate and sustainable development / CSR communication strategy.
